SamenParaat at a glance

SAMENPARAAT · VOOR GEMEENTEN

Purpose

SamenParaat helps Dutch municipalities follow up the national Denk vooruit campaign locally. A short resident check shows where participating households still need to prepare.

What the municipality receives

- Its own QR code, link and poster with logo.
- A resident check and Mijn NoodCheck in Dutch and English.
- A dashboard by topic, district and age group.
- Recommended actions with ready-made texts.
- Repeat measurements, reminders, quarterly report and CSV export.
- Unlimited portal users and support by email.

Privacy

The municipality only sees aggregated results and never individual answers. Groups below 20 households are hidden; an additional group is suppressed where needed to prevent inference. Hosting and storage are in the EU and IP addresses are not stored.

Trial and price

The trial lasts 30 days (3 months for the first 3 pilot municipalities), requires no payment details and stops automatically. Payment only starts after the municipality activates. Small: €499 monthly or €4,990 yearly. Medium: €749 or €7,490. Large: €1,195 or €11,950. Prices exclude VAT.

Next step
