Medication for 3 days	77%	**77%**	**±0 pp**
First-aid kit	67%	**66%**	**−1 pp**

This report compares all participating households at two moments. A change can also come from new households joining; the report does not show the effect of campaigns. A comparison of the same households is only available between measurement rounds, in the dashboard.

Points of attention and advice

1 Encourage checking the emergency kit

Item: Emergency kit checked in the past six months

20% item score

Average of participating households; ‘Partly’ counts half.

Do now

Post a call this week on the municipal website and your social media about checking the emergency kit. You can use the texts below straight away; the resident link is already in them.

Why now

- Lowest item score of the 16 items

Districts below the municipal average (20%)

District Noord: 15% · District Zuid: 16%

Additional idea

A fixed moment to come back to: the next clock change on 28 March 2027. A call to check the emergency kit fits that moment, like testing the smoke alarm.

Review again

In the Q1 2027 quarterly report, or after a new measurement round.

2 Encourage contact with neighbours

Item: Talked to your neighbours

43% item score

Average of participating households; ‘Partly’ counts half.

Do now

Post a call this week on the municipal website and your social media about contact with neighbours. You can use the texts below straight away; the resident link is already in them.

Why now

- 4th lowest item score of the 16 items
- 6 percentage points below the average of other municipalities (49%)
- Only +2 percentage points vs status on 30 September 2026

Districts below the municipal average (43%)

District Noord: 32% · District Zuid: 33% · Age Under 30: 29%

Additional idea

Encourage a neighbours' day or street chat, and put the topic on district council agendas.

Possible channels

social media (Instagram, TikTok), colleges, sports clubs

Review again

In the Q1 2027 quarterly report, or after a new measurement round.

3 Encourage copies of important documents

Item: Copies of ID documents

40% item score

Average of participating households; ‘Partly’ counts half.

Do now

Post a call this week on the municipal website and your social media about copies of important documents. You can use the texts below straight away; the resident link is already in them.

Why now

- 3rd lowest item score of the 16 items
- 6 percentage points below the average of other municipalities (46%)

Districts below the municipal average (40%)

District Zuid: 28% · District Noord: 33% · Age 80+: 31%

Additional idea

Offer free copying for a week at the front desk or library, with a waterproof pouch.

Possible channels

home care, informal carers, senior associations, home visits

Review again

In the Q1 2027 quarterly report, or after a new measurement round.

Districts

Sorted by lowest average score. The difference is in percentage points compared with the municipal average.

District	Households	Average score	Difference from municipality	Largest gap vs municipality
Zuid	329	**53%**	**−8 pp**	Charged power bank: 51% (municipality 63%)
Noord	273	**56%**	**−5 pp**	List of important phone numbers: 45% (municipality 56%)
West	210	**62%**	**+1 pp**	List of important phone numbers: 50% (municipality 56%)
Oost	253	**65%**	**+4 pp**	Plan agreed with your household: 51% (municipality 53%)
Centrum	348	**68%**	**+7 pp**	Medication for 3 days: 79% (municipality 77%)

Age and household

Age

	Households	Average score	Lowest-scoring item
Under 30	270	**58%**	Emergency kit checked in the past six months (17%)
30–49	510	**61%**	Emergency kit checked in the past six months (18%)
50–64	376	**63%**	Emergency kit checked in the past six months (24%)
65–79	239	**63%**	Emergency kit checked in the past six months (21%)
80+	62	**61%**	Emergency kit checked in the past six months (21%)

Household

	Households	Average score	Lowest-scoring item
With children	1,015	**61%**	Emergency kit checked in the past six months (20%)
Adults without children	359	**61%**	Emergency kit checked in the past six months (17%)
Single	140	**62%**	Emergency kit checked in the past six months (21%)

Age given by 1457 of 1514 households (the question is optional). Groups under 20 are not shown.

All figures are totals of self-reported answers from participating households; not automatically representative of the whole municipality. Groups under 20 households are not shown, nor derivable from the totals. Differences are in percentage points.
